Freshwater crayfish aquaculture in North America, Europe ...

Crawfish farming is considered by many to be a relatively environmentally friendly land use. Incorporating crawfish aquaculture with traditional agricultural practices serves as a productive form of land and water conservation. Often, land that is only marginal for traditional row crops is used for crawfish production.

Crawfish - Freshwater Aquaculture

Freshwater Crayfish Farming: A Guide to Getting Started draws on his experience as aquaculture manager for the Keewai project. This is a business initiated by forestry company Ernslaw One to gain additional revenue from the hundreds of fire ponds in its forests.

How to farm New Zealand freshwater crayfish Koura - thisNZlife

Freshwater crayfish aquaculture is in an early development stage with no farm currently producing large volumes of saleable stock (<500kg combined total annual production in New Zealand). In 2015 there were 17 licensed freshwater crayfish farms but only four (all in the South Island) were in production. All are selling on the domestic market.

Freshwater Crayfish Farming - KEEWAI

Freshwater Crayfish ... *Cherax quadricarinatus*, is a freshwater crayfish endemic to rivers of north-eastern Australia. Aquaculturists have suggested that redclaw from different catchments may be of varying suitability for cultivation. ... On the basis of this information their relative suitability for aquaculture was assessed.

FRESHWATER CRAYFISH: Biological and aquaculture ...

In our pond-based aquaculture farm we grow the tropical North Queensland crayfish called red claw (*Cherax quadricarinatus*) which is a native freshwater crayfish from the region. We produce redclaw for the local market, but we have specialised in all things pre grow-out; so that's broodstock, egg production, crayling production and soon a nursery.

Redclaw (Freshwater Crayfish) - AquaVerde Redclaw Hatchery ...

Thune R (1994) Diseases of Louisiana crayfish. In: Huner V (ed) (editor), Freshwater Crayfish Aquaculture in North America, Europe, and Australia Food Products Press, New York, p 117-156: Thune RL, Hawke JP, Siebeling RJ (1991) Vibriosis in the red crawfish. How to farm red claw crayfish | The Fish Site

Freshwater crayfish (Redclaw) 24.05.17. Freshwater crayfish occur naturally throughout Australia. The three species that underpin commercial production are the yabby (*Cherax destructor*), marron (*Cherax tenuimanus*) and redclaw (*Cherax quadricarinatus*). In general terms, the yabby is smaller and not as high yielding as the redclaw, while the marron is usually larger but slower growing.
