The race for what's left : the global scramble for the ...

THE RACE FOR WHAT'S LEFT (Chapter One)1 Driven by Depletion. In 1971, a Mexican fisherman named Rudesino Cantarell encountered an annoying problem while plying his trade off the Yucatán Peninsula: clots of oil, apparently seeping from underground seams in the Bay of Campeche, were clinging to his nets and reducing his catch.

The Race for What's Left: The Global Scramble for the ...

Persisting with the race for what's left will probably result, Klare predicts, in “war, widespread starvation, or a massive environmental catastrophe” with the first crisis likely to hit in agriculture, where the looming shortage of tillable land and the growing demand for food will usher in an era of “Peak Soil.” “Perhaps the fiercest resource struggle in the coming decades will ...
