### Ulf 1 Construction Manual - installatienetwerk.nl

The ULF-1 is one of the best-performing foot-launched aircraft to date, as well as one of the safest designs available to the self-builder. The design received a German airworthiness certificate in 1980, and has also been approved by Australian authorities. The basic construction materials are spruce, birch plywood and balsa.

### ULF-1 foot launched sailplane glider homebuilt aircraft plans

The plans consist of 31 blueprint pages and a 37-page construction manual. The manufacturer claims a build time of about 1000 hours. Operational history. The prototype has flown more than 200 flights totalling over 150 hours, most of which were foot-launched. The longest flight flown by a ULF 1 is six hours and 140 km (87 mi).

### EEL ULF 1 - Wikipedia

Taking a look at different ULF-1 builds one can see, that nearly each single ULF-1 is unique for itself. Despite the fact, that all builds are based on the design and the drawings of Dieter Reich and Heiner Neumann, the final build includes most of the time different alterations, matching the ideas and personal needs of the builder. But most of the alterations are only to be detected by a very ...

### UL-Segelflug.de - Revolutionary ULF-1 Concept "Made in USA"

ULF-1 is specially suited for homebuilders. The basic construction materials are spruce, birch plywood and balsa wood. The airframe is covered with doped fabric. For hinges, fasteners and fittings, aluminium, steel sheet and fibreglass/resin are used.

### For Sale - ULF-1 Glider Plans - Wooden Foot Launched ...

ULF-1 by Dieter Reich "There was a comprehensive article published on this ship in the July 1986 issue of Hang Gliding magazine. Contact the USHGA or some local hang glider pilots to locate a copy of that issue. As I recall the performance was in the 15 to 18/1 range and the ship was made of wood and fabric.

The German ULF-1 has been around for several years, prompting several builders to put their own distinct look on the vintage-looking sailplane. In fact, over 40 of the microlift-capable craft have been built from plans supplied by designer Dieter Reich. ULF-1 is a highly capable vehicle, with the longest flight so far lasting six hours and the furthest distance flown around 140 kilometers (87 ...

### A Two-motor Electric German Ultralight - Made in the USA ...

The plans consists of 29 sheets of blueprints, a 50-page construction manual and a 20-page flight manual, available in both English and German. The plans cost € 350 and a completed aircraft is estimated to cost €8000. The aircraft has very benign stall characteristics, resulting in a controllable slow speed mush condition.
